OF HARM & SERIOUS MISCONDUCT POLICY

Responding to allegations of risk of harm and serious misconduct policy

We are aware that relationships between adults and children and young persons, and those who are vulnerable persons are ones of unequal power. LIVEfree PROJECT is committed to exercising our duty of care and proper use of positional power whilst engaging ALL people within our community and especially children, young people, and vulnerable people who are disadvantaged for whatever reason.

LIVEfree PROJECT has a ZERO tolerance of any incidents of abuse.

Abuse is an act that endangers a person's physical, mental, or emotional health, development, or their finances. Abuse does not always, but generally, takes place over time, grooming the person into a distorted view of what is safe, respectful, and right.

Commonly recognized forms of abuse include the following:

Physical abuse occurs when a person suffers or is likely to suffer significant harm from an injury inflicted by another person. The injury may be inflicted intentionally or may be the inadvertent consequence of physical punishment or the physically aggressive treatment of a person.

Emotional abuse occurs when a perpetrator repeatedly rejects the person or uses threats to frighten the person and creates an emotional environment which significantly damages the persons physical, social, intellectual, or emotional development.

Sexual abuse occurs when a person uses their power or authority over a another to involve them in sexual activity and the person is not being protected or respected. Physical force is sometimes involved. Sexual abuse can involve a wide range of sexual activity.

Neglect is the failure to provide the basic necessities of life such as food, clothing, shelter, medical attention or supervision and safety to the extent that the persons health and development is, or is likely to be, significantly harmed.

Psychological abuse occurs when a person is repeatedly subjected to harmful mental stresses, traumatising behaviours or attitudes that are traumatising to a person's mental safety or development of a person's inner self.

Financial abuse occurs when a person assumes power or control over the finances of another without legal process or just cause. Where a person is stripped of their rights to access their own income, benefit or entitled payments by another. Where someone uses their power to control how another's finances are used or distributed without their expressed permission.

Underage Marriage occurs when a child is either given in marriage, forced, or submitted to an arranged marriage. This is when a child's rights can be violated through religious or cultural influences or coercion, which impacts negatively on their young life experience.
